WHAT THE INSURER PAYS FOR COVERED MEDICAL EXPENSES:

If a Covered Person incurs expenses while insured under the Plan due to an Injury or a Sickness, the Insurer will pay the Reasonable Expenses for the Covered Medical Expenses listed below. All Covered Medical Expenses incurred as a result of the same or related cause, including any Complications, shall be considered as resulting from one Sickness or Injury. The amount payable for any one Injury or Sickness will not exceed the Maximum Benefit for the Eligible Participant or the Maximum Benefit for an Eligible Dependent stated in Coverage A - Medical Expenses of Table 1 of the Schedule of Benefits. Benefits are subject to the Deductible Amount, Coinsurance, Copayments, and Maximum Benefits stated in the Schedule of Benefits, specified benefits and limitations set forth under Covered Medical Expenses, the General Plan Exclusions, the Pre Existing Condition Limitation and to all other limitations and provisions of the Plan.

COVERED GENERAL MEDICAL EXPENSES AND LIMITATIONS:

Covered Medical Expenses are limited to the Reasonable Expenses incurred for services, treatments and supplies listed below. All benefits are per Injury or Sickness unless stated otherwise. No Medical Treatment Benefit is payable for Reasonable Expenses incurred after the Covered Person’s insurance terminates as stated in the Period of Coverage provision. However, if the Covered Person is in a Hospital on the date the insurance terminates, the Insurer will continue to pay the Medical Treatment Benefits until the earlier of the date the Confinement ends or 31 days after the date the insurance terminates. If the Covered Person was insured under a group plan administered by the Administrator immediately prior to the Coverage Start Date shown on the Identification Card issued to the Participant, the Insurer will pay the Medical Treatment Benefits for a Covered Injury or a Covered Sickness such that there is no interruption in the Covered Person’s insurance.

1. **Physician office visits.**

2. **Hospital Services:** Inpatient Hospital services and Hospital and Physician Outpatient services consist of the following: Hospital room and board, including general nursing services; medical and surgical treatment; medical services and supplies; Outpatient nursing services provided by an RN, LPN or LVN; local, professional ground ambulance services to and from a local Hospital for Emergency Hospitalization and Emergency Medical Care; X rays; laboratory tests; prescription medicines; artificial limbs or prosthetic
appliances, including those which are functionally necessary; the rental or purchase, at the Insurer’s option, of durable medical equipment for therapeutic use, including repairs and necessary maintenance of purchased equipment not provided for under a manufacturer’s warranty or purchase agreement. The Insurer will not pay for Hospital room and board charges in excess of the prevailing semi private room rate unless the requirements of Medically Necessary treatment dictate accommodations other than a semi private room. If Tests and X-rays are the result of a Physician Office Visit or of Hospital and Physician Outpatient Services there is no additional Copayment for these Tests or X-rays. A Deductible may apply. However, if there is neither a Physician Office Visit nor Hospital or Physician Outpatient Services delivered, the Hospital and Physician Outpatient Services Copayment applies.

3. Emergency Hospital Services: Emergency Hospital Services are Emergency Medical Care delivered in a Hospital Emergency room as defined in this Plan.

**Definitions**

**Accident (Accidental)** means a sudden, unexpected and unforeseen, identifiable event producing at the time objective symptoms of an Injury. The Accident must occur while the Covered Person is insured under the Plan.

**Covered Medical Expense** means an expense actually incurred by or on behalf of a Covered Person for those services and supplies which are:

1. Administered or ordered by a Physician;
2. Medically Necessary to the diagnosis and treatment of an Injury or Sickness;
3. Are not excluded by any provision of the Policy; and incurred while the Covered Person’s insurance is in force under the Policy, except as stated in the Extension of Benefits provision. A Covered Medical Expense is deemed to be incurred on the date such service or supply which gave rise to the expense or charge was rendered or obtained. Covered Medical Expenses are listed in Table 3 and described in Section 2.

**Emergency Hospitalization and Emergency Medical Care** means hospitalization or medical care that is provided for an Injury or a Sickness condition manifesting itself by acute symptoms of sufficient severity including without limitation sudden and unexpected severe pain for which the absence of immediate medical attention could reasonably result in:
1. Permanently placing the Covered Person’s health in jeopardy, or
2. Causing other serious medical consequences; or
3. Causing serious impairment to bodily functions; or
4. Causing serious and permanent dysfunction of any bodily organ or part. Previously diagnosed chronic conditions in which subacute symptoms have existed over a period of time shall not be included in this definition of a medical emergency, unless symptoms suddenly become so severe that immediate medical aid is required.

**Injury** means bodily injury caused directly by an Accident. It must be independent of all other causes. To be covered, the Injury must first be treated while the Covered Person is insured under the Policy. A Sickness is not an Injury. A bacterial infection that occurs through an Accidental wound or from a medical or surgical treatment of a Sickness is an Injury.

**Medically Necessary** services or supplies are those that the Insurer determines to be all of the following:
1. Appropriate and necessary for the symptoms, diagnosis or treatment of the medical condition;
2. Provided for the diagnosis or direct care and treatment of the medical condition;
3. Within standards of good medical practice within the organized community;
4. Not primarily for the patient’s, the Physician’s, or another provider’s convenience;
5. The most appropriate supply or level of service that can safely be provided. For Hospital stays, this means acute care as an inpatient is necessary due to the kind of services the Covered Person is receiving or the severity of the Covered Person’s condition and that safe and adequate care cannot be received as an outpatient or in a less intensified medical setting. The fact that a Physician may prescribe,
authorize, or direct a service does not of itself make it Medically Necessary or covered by the Policy.

**Reasonable Expense** means the normal charge of the provider, incurred by the Covered Person, in the absence of insurance, (1) for a medical service or supply, but not more than the prevailing charge in the area for a like service by a provider with similar training or experience, or (2) for a supply which is identical or substantially equivalent. The final determination of a reasonable and customary charge rests solely with the Insurer.

**Sickness** means an illness, ailment, disease, or physical condition of a Covered Person starting while insured under the Plan.

### Limitations and Exclusions

#### Pre-Existing Condition Limitation

The Insurer does pay benefits for loss due to a Pre Existing Condition.

4. Expenses incurred as a result of pregnancy that is not covered.
5. Participating in an illegal occupation or committing or attempting to commit a felony.
6. Treatment to the teeth, gums, jaw or structures directly supporting the teeth, including surgical extraction’s of teeth, TMJ dysfunction or skeletal irregularities of one or both jaws including orthognathia and mandibular retrognathia, unless otherwise noted.
7. Loss due to an act of war; service in the armed forces of any country or international authority and participation in a: riot; or civil commotion.
8. Riding in any aircraft, except as a passenger on a regularly scheduled airline or charter flight.

MEDICAL EVACUATION BENEFIT

If an Insured Person is involved in an accident or suffers a sudden, unforeseen illness requiring emergency medical services, while traveling outside his/her home country, the Administrator will coordinate and pay for a medically-supervised evacuation, up to $1,000,000, to the nearest appropriate medical facility. This medically-supervised evacuation will be to the nearest medical facility only if the facility is capable of providing adequate care and if adequate care is not available locally and the Injury or Sickness requires immediate emergency medical treatment, without which there would be a significant risk of death or serious impairment. The determination of whether a medical condition constitutes an emergency and whether area facilities are capable of providing adequate medical care shall be made by physicians designated by the Administrator after consultation with the attending physician on the Insured Person’s medical conditions. The decision of these designated physicians shall
be conclusive in determining the need for medical evacuation services. Transportation shall not be considered medically necessary if the physician designated by the Administrator determines that the Insured Person can continue his/her trip or can use the original transportation arrangements that he/she purchased. Only one transport is covered in connection with one course of an illness or accident. The Insurer will pay Reasonable Charges for escort services if the Insured Person is a minor or if the Insured Person is disabled during a trip and an escort is recommended in writing by the attending Physician and approved by the Insurer. All evacuations must be approved and coordinated by HTH Worldwide. Transportation must be by the most direct and economical route.

If an Insured Person dies, while traveling outside his/her home country, the Insurer will pay the necessary expenses actually incurred, up to $50,000, for the preparation of the body for burial, or the cremation, and for the transportation of the remains to his/her Home Country. This benefit covers the legal minimum requirements for the transportation of the remains. It does not include the transportation of anyone accompanying the body, urns, caskets, coffins, visitation, burial or funeral expenses. Any expense for repatriation of remains requires approval in advance by HTH Worldwide.

**BEDSIDE VISIT BENEFIT**

If an Insured Person is Hospital Confined due to an Injury or Sickness for more than 3 days, is likely to be hospitalized for more than 3 days or is in critical condition, while traveling outside his/her home country, the Insurer will pay up $5,000 for the cost of one economy round trip air fare ticket to, and the hotel accommodations in, the place of the Hospital Confinement for one person designated by the Insured Person.
