THE 2003 FACULTY RESEARCH SHOW IS A SUCCESS!

On the afternoon of March 11, 2003, faculty and staff members representing twenty departments/programs presented forty diverse projects to an audience of approximately 350 colleagues, students and visitors at the 3rd annual Faculty Research Show. The Show provides a forum to showcase the talent and hard work of faculty who balance the responsibilities of teaching while pursuing important original research endeavors. The Show also presents an opportunity to expose students to research methodology and other elements of conducting academic research. The Morris Conference Center was the venue for the multi-format presentations which included scheduled oral presentations, posters, video and computer displays, and hands-on exhibits.

Sponsored by the Grants Development Office, the Provost's Office (F. Daniel Larkin), and the Division of College Advancement (Paul J. Adamo) the Faculty Research Show provides an increased awareness of the excellent research and related programs ongoing at the College at Oneonta and enhances scholarship and the academic atmosphere on campus. We appreciate the efforts of these dedicated professionals (and their collaborating colleagues and students), and thank them for sharing their important work:
