

I joined Greek Life

By Jaclyn Fettinger, Sigma Sigma Sigma Sorority(ΣΣΣ)

When I first came to Oneonta, I knew that I wanted to get involved with something on campus, but I didn't know how. Although I never saw myself as a typical sorority girl, I heard a lot about Greek Life and all that it had to offer and I soon realized it might just be the place for me. I knew someone in Sigma Sigma Sigma from high school and she introduced me to all of the sisters. After meeting everyone, I knew that I had found my place at school. Not only do I have fifty sisters, but I have made friends who have become my family and are always there for me no matter what. Joining Tri Sigma also allowed me to be more active with community service and form friendships with people in other Greek organizations that I probably would not have had without Greek Life. Becoming a sister of Tri Sigma was one of the best decisions that I have ever made and I can't imagine spending my college career with anyone else.
