

## I joined Greek Life because

By: Randi Smith, Phi Sigma Sigma Sorority (ΦΣΣ)

When I first came to school I had no intentions of joining a sorority. After rushing with my roommates, I realized Greek Life was something that interested me. I met the girls of Phi Sigma Sigma and instantly clicked with the girls. Now being in the sorority for almost a year, I realized it was one of the best decisions I've ever made. I made amazing relationships with people in my organization and also in others. Being part of Greek Life gives you many opportunities to engage in community service and on campus activities. This is a great way to expand your social skills and meet new people. I would recommend joining any organization in Greek Life because it opens up many doors to new friends and exciting life experiences.
