

I joined Greek Life because

By: Samantha Wade, Pi Delta Chi Sorority (ΠΔΧ)

Originally I didn't want to have anything to do with the Greeks because of the stereotypes played throughout the media. However, after seeing that the stereotypes (hazing) do not in fact exist at SUNY Oneonta, I decided to see what everyone was going crazy about. Along the way I met girls that I completely fell in step with. First impressions are huge for me and when I met some of the girls who were going through the Pi Delta Chi new member process, I started to get interested and finally I decided that I wanted to meet the sisters of the sorority. My new member process was amazing and really helped me bond with both the current sisters and the girls that I was in the process with. I love every one of my sisters for their little quirks and amazing personalities that might have gotten lost in the midst of thirty other girls if I joined a bigger sorority. Pi Delta Chi to me is my pseudo family and I love the closeness that we have.
