

## Connect to your p drive with Goliath

Published by Justin [stonge] on 8/14/2007 (3354 reads)

Mac OS X version 10.3 and lower use these instructions to connect to your p drive from off campus or in your ResHall.

Download [Goliath](#) if you haven't already. Follow the instructions on the Goliath download page to install.

**New WebDAV Connection**

URL:

User Name:  Password:

▼ **Advanced Settings**

Use Proxy Server  Use Proxy Authentication

Proxy Host:  User Name:

Proxy Port:  Password:

**Disable encoding of Macintosh Resources**

Select new connection and enter your Oneonta username and password in the required fields.

Use these URLs:

Students: <https://studentfiles.oneonta.edu/pdrive/username>

Faculty: <https://facultyfiles.oneonta.edu/pdrive/username>

Computer Art Students: <https://cartfiles.oneonta.edu/student/username>

Computer Art Faculty: <https://cartfiles.oneonta.edu/faculty/username>

You may receive this alert. Select "Install Certificate" and click Ok.

If you need help setting up goliath please have a look at the Users Manual that comes with the install.
